

# JOURNEY OF DESIGNING

**Howdy, my name is Kobie Zweigle and I am  
just a small town graphic designer on his  
journey through life. This is my portfolio  
and I hope you enjoy seeing who I am.**

- 10 OAK WINE**
- 12 HONKING GOOSE**
- 14 BEAR'S BEER**
- 16 OLD FRIEND**
- 18 PATEROS VOLUNTEER FIRE**
- 20 EASTON FIRE**
- 22 VANTAGE FIRE**

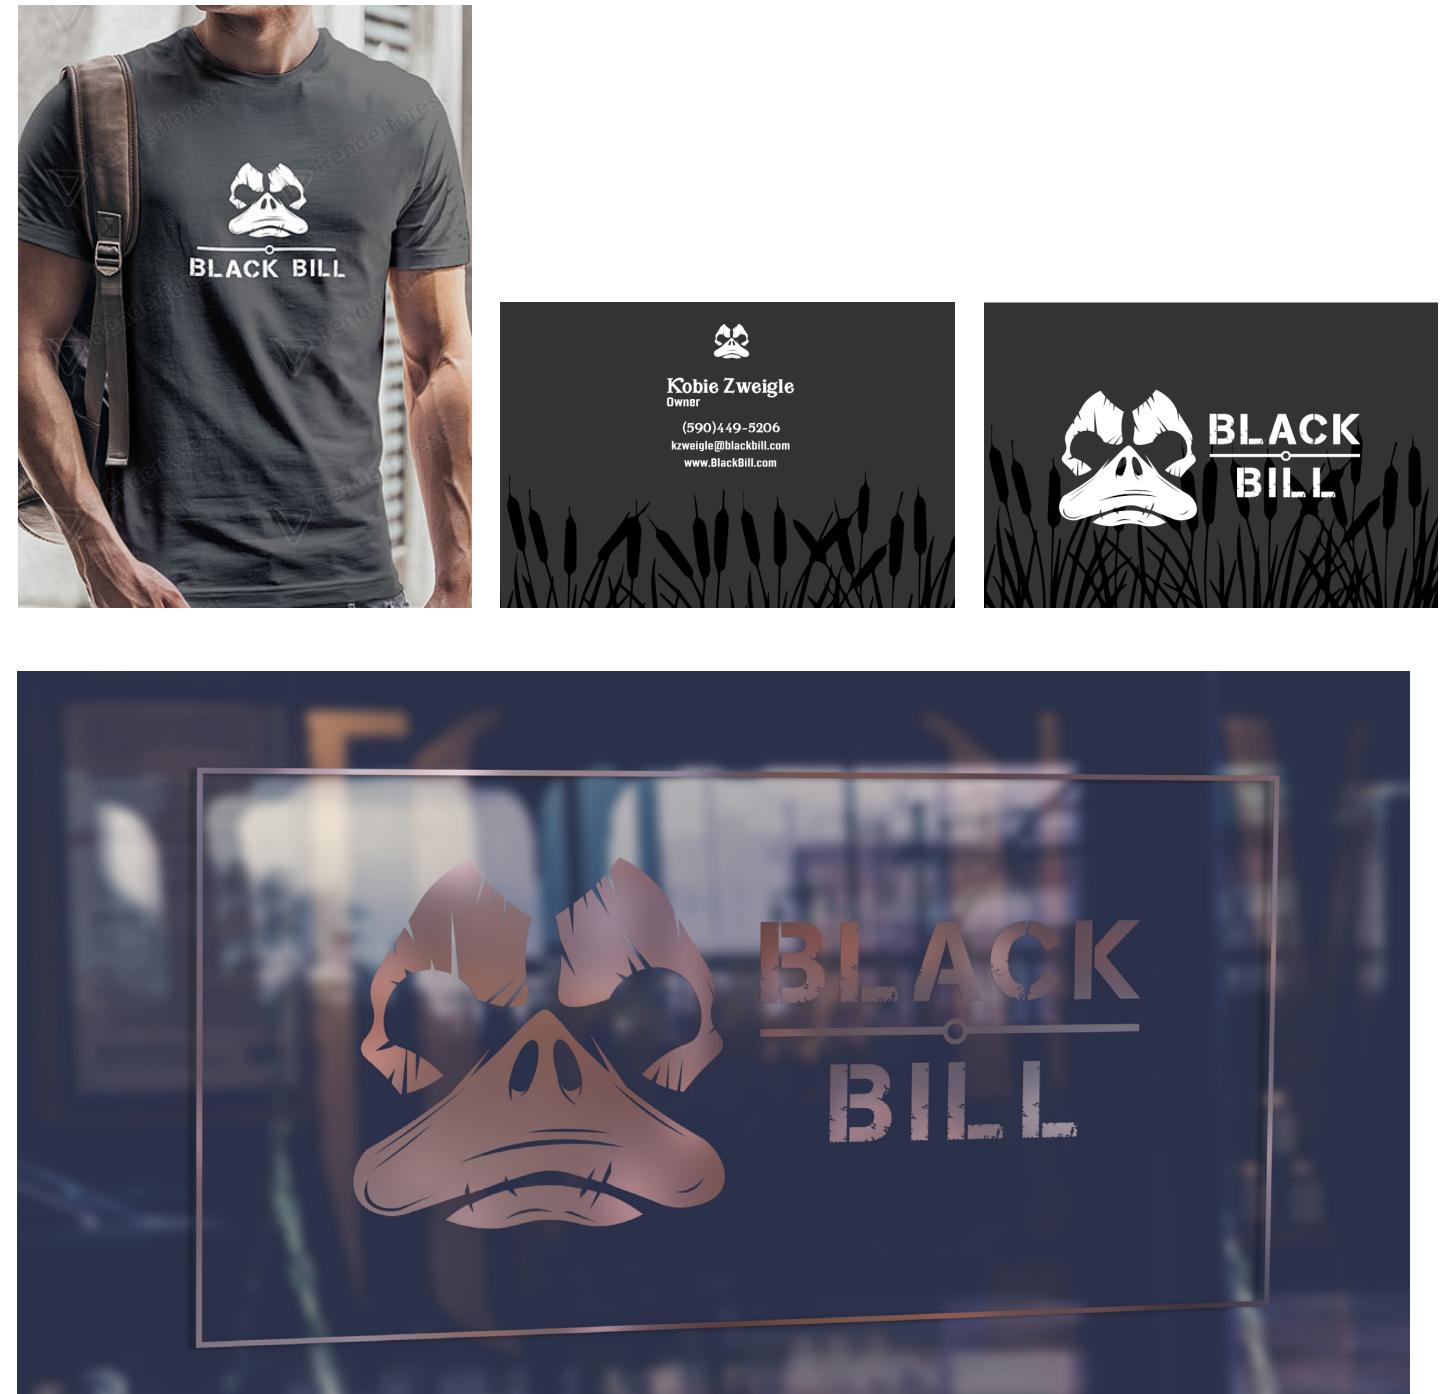

# FIREHOUSE MOVERS

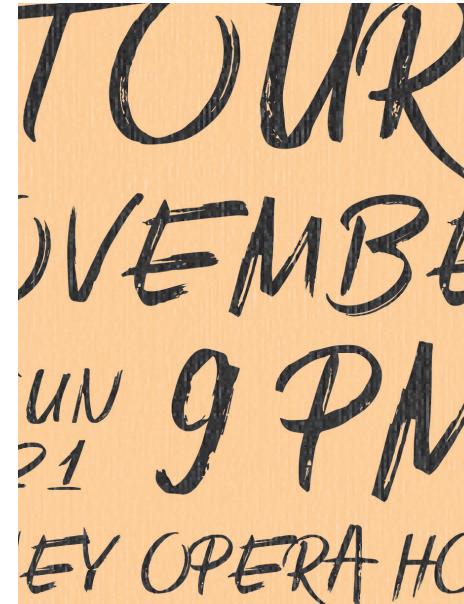

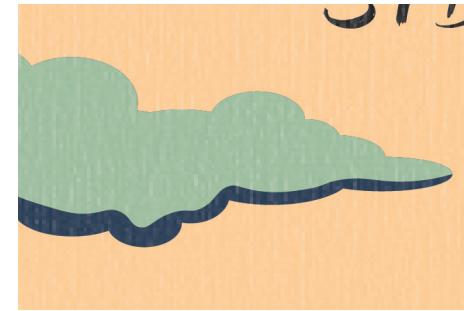

Firehouse Movers is a project designed for a paid fire department, with the objective to give back to the community in another way other than just their services through fire.

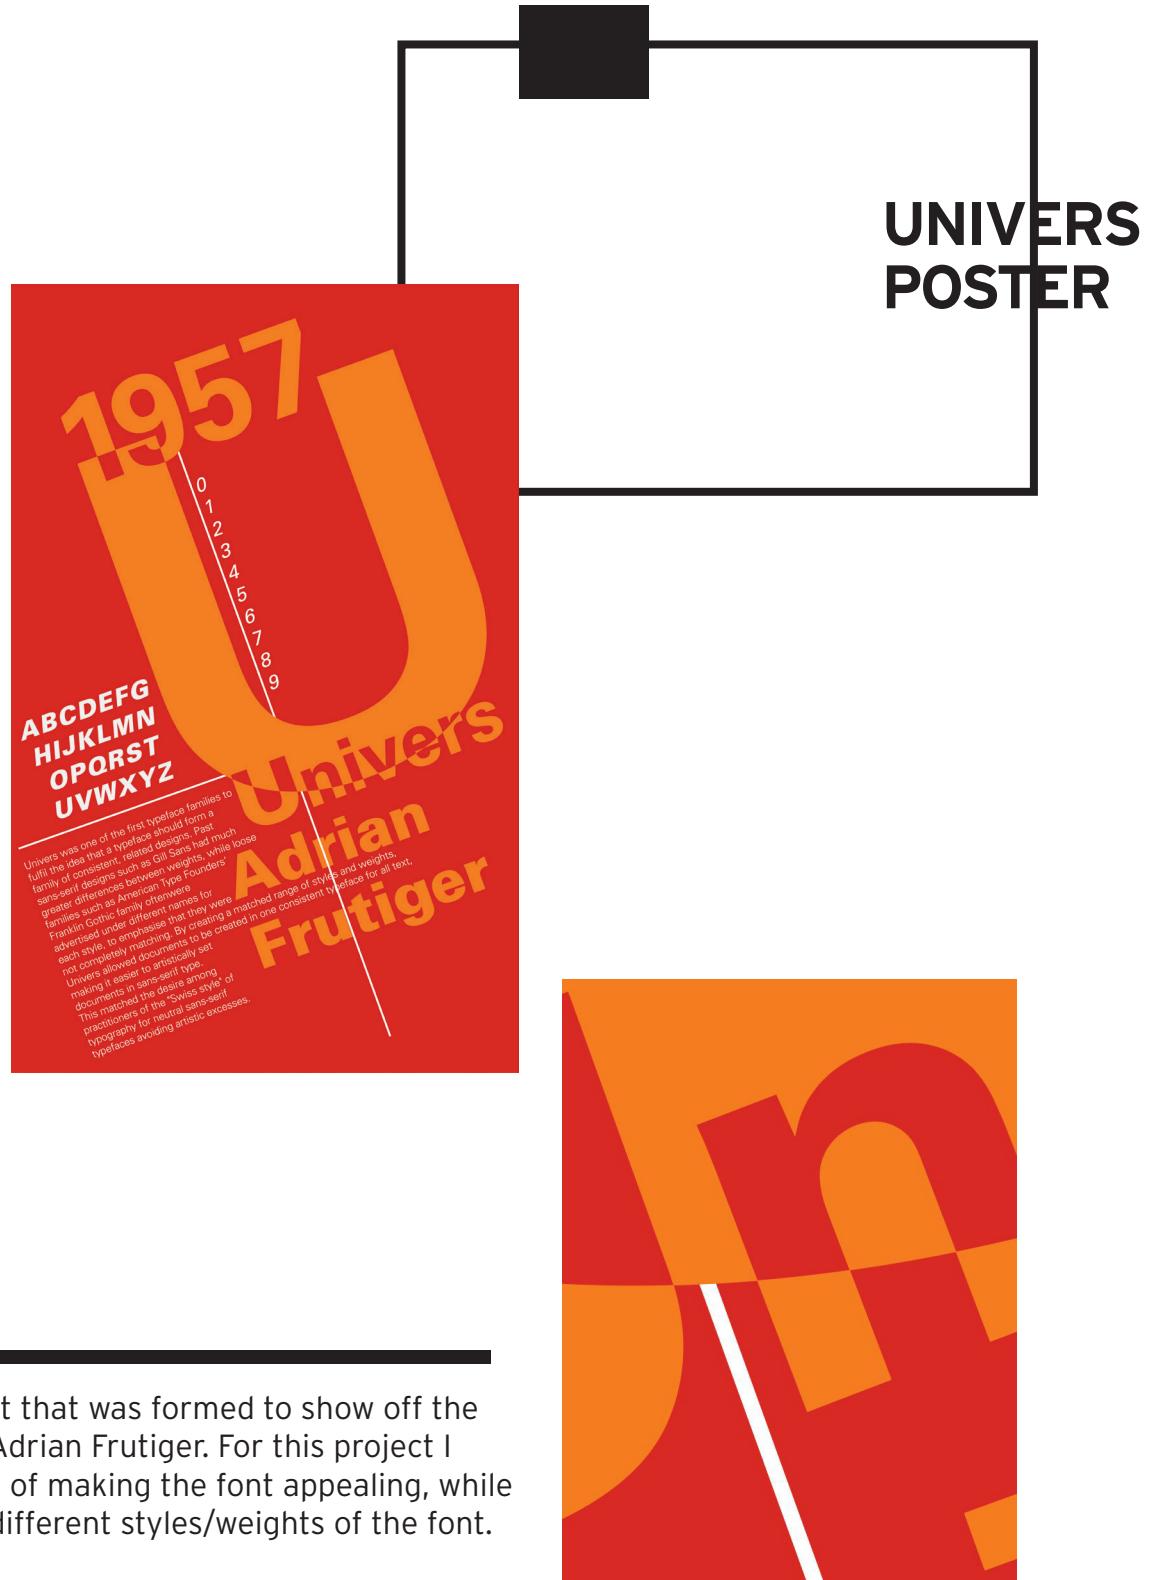

Black Bill is a personal project, that was designed for the waterfowl group that I am involved in (friends and family). In order to give the group our own identity, as many groups and guide services do.

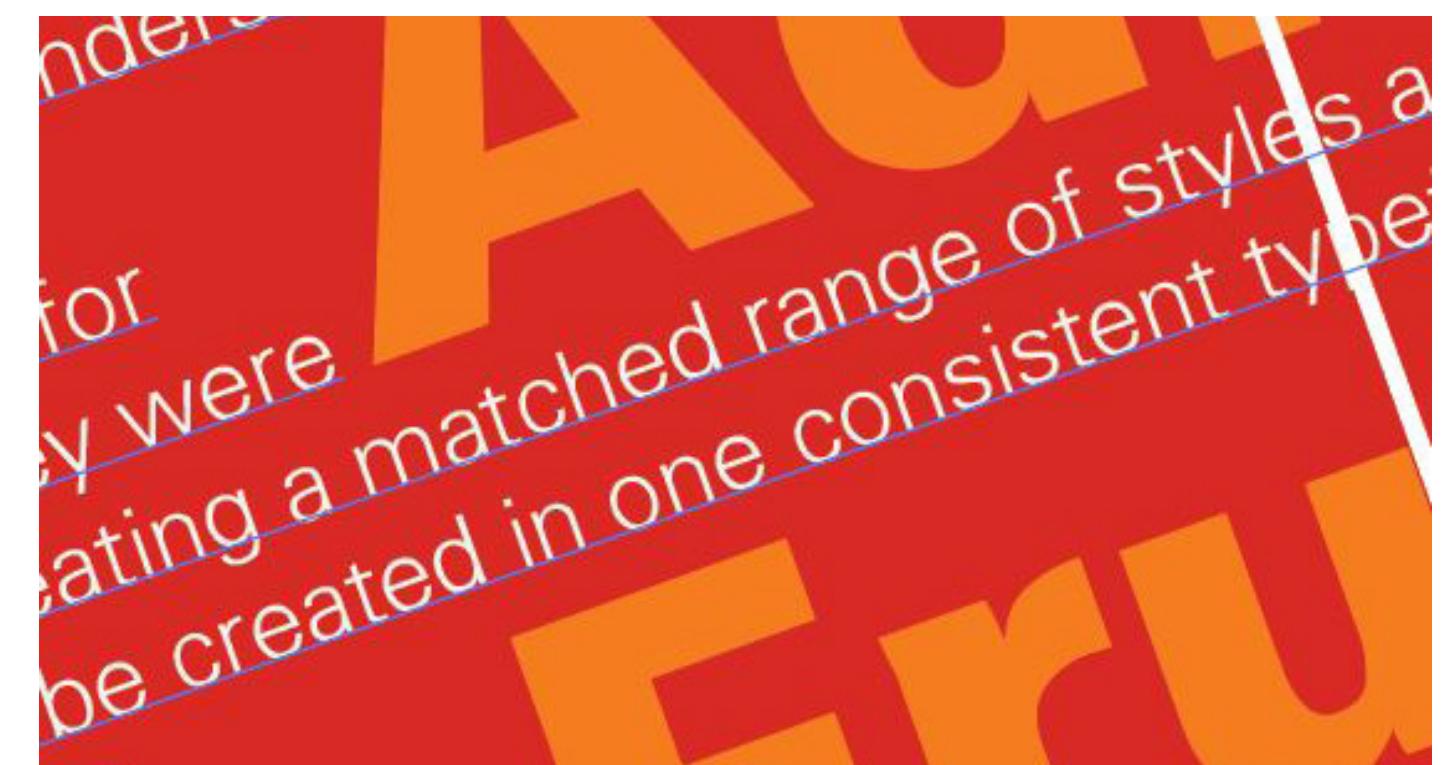

ELECTRIC  
MAGIC

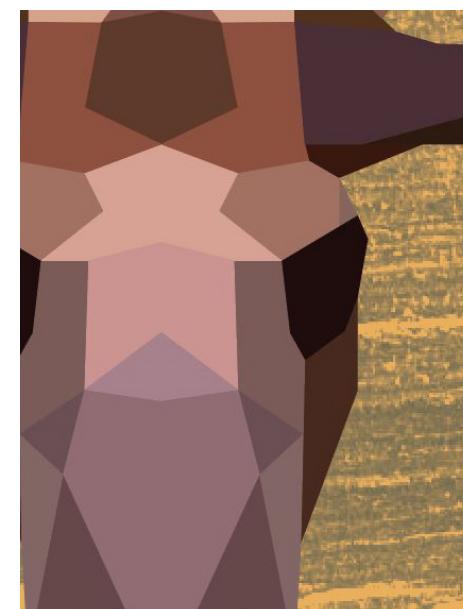

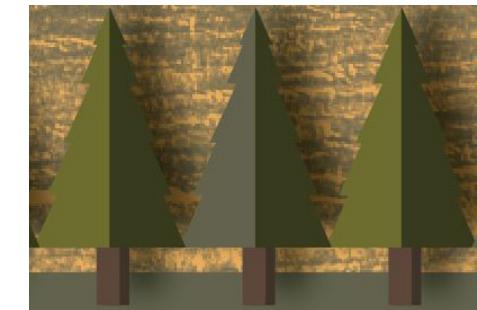

Electric magic was designed as a concept poster for Led Zeppelin, as if they were to hold a concert at the Sydney Opera House.

Font poster project that was formed to show off the font (Univers) by Adrian Frutiger. For this project I took the approach of making the font appealing, while also showing the different styles/weights of the font.

OAK  
WINE

Oak is a created wine brand designed to give the consumer the experience of nature's relaxing forest.

Honking Goose was created on the passion of waterfowl hunting. Was then transferred to the love of beer. The result was a hand crafted beer label done in scratch board.

BEAR'S  
BEER

Bear's Beer was created on the base of introducing a new brand of alcohol to a thriving area of business. One that would be enticing to the consumer audience.

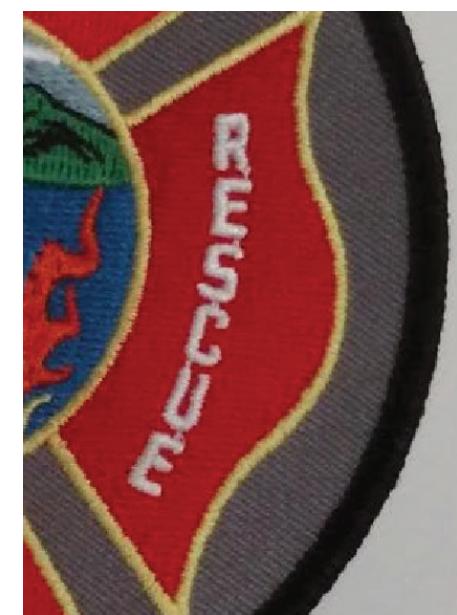

Old Friend is a project that was created for a christmas card design competition. For my design I chose to do it in adobe illustrator. Unfortunately my design was not chosen as the design to use, but I did gain the experience through the competition.

PATEROS

VOLUNTEER FIRE

Patch was designed as the official patch for the Pateros Volunteer Fire Dept. As the client did not have an official department patch and only a district patch.

Patch created for Easton Fire Department, to be used on their uniforms.

VANTAGE  
FIRE

Created a patch for the Vantage Fire Department. As the client seen other patch work that I have done and wanted a patch for their uniforms also.

A black and white photograph of a dirt road leading towards a distant, flat horizon under a clear sky. The road is textured and appears to be made of dirt or gravel. It curves slightly to the left in the foreground. In the background, there is a low, rolling hill or embankment. Beyond the hill, a simple wooden fence line is visible against the horizon. The sky is bright and featureless.

**This is the end of the road for now,  
but not the end of my journey.**
